The new **Škoda**Roomster
ENJOY A DIFFERENT VIEW

A DIFFERENT ANGLE ON DESIGN

"A cockpit in the front, a living room in the rear." It was a unique design brief, and it raised a unique set of questions. Could such a car be practical as well as stylish? Could the functional exist in perfect harmony with the beautiful? Could passengers have their comfort and drivers have their fun? Škoda's designers dared to ask these questions and opened their minds to new ways of looking at the answers. The result is the new Škoda Roomster. It's a new kind of vehicle, and a different kind of driving experience. It's changed our perspective. Now it's ready to change yours.

LOOK A LITTLE CLOSER

Arresting style, advanced technology and absolute practicality are the hallmarks of the Škoda Roomster. As your eye wanders over exquisite paintwork and tasteful chrome, unique details reveal themselves one after another – the striking lines of the

headlamps and corner lights, the distinctively shaped grille, the arresting window profile with the cleverly recessed door handle, the signature rear light design. Invention follows invention. Keep looking. There's so much more to discover.

A NEW VIEW
FROM THE FRONT

The Roomster's unique front window was inspired by the arresting lines of jet aircraft. Get behind the wheel, and you'll see immediately how the concept of "a cockpit in the front" has influenced every aspect of the design. Efficiency and safety are of paramount importance, whilst bi-axial steering wheel positioning, front and side-mounted air bags, superb ergonomics, tinted windows and a height-adjustable driver's seat combine to deliver an on-road experience of total comfort, confidence and control.

WIDESCREEN COMFORT

From the moment you step into the back of a Roomster, you can see how perfectly the designer's aim of "a living room in the rear" has been realized. There's room to think, room to breathe, room to live. Relax and enjoy with a panoramic roof over your head, a cup holder at your fingertips and space galore at your feet. Three-point seat belts and head airbags provide peace of mind, whilst raised cinema seating and extra-large, low-profile windows open up views for even the smallest passengers to lose themselves in. It's all about light and space, safety and security, comfort and serenity. Welcome to the Roomster way of life.

ANOTHER DAY

Hitting the beach or heading for work. Walking the dog or collecting the kids. Losing yourself at the weekend or finding yourself in the countryside. You know your needs change all the time.

ANOTHER LOOK

So we created the VarioFlex seating system to ensure the Roomster would do the same. Such total flexibility was pretty tricky to design. Naturally, it couldn't be easier to use.

SEE LIFE DIFFERENTLY

Broaden your horizons and go beyond them. Strap a few bikes onto the rack and head off the beaten track. Pull down the tow bar, hook up a trailer or a boat and sail the highways and byways. Cocoon your children in the robust safety seats and take them on the adventure of a lifetime. Škoda Accessories turn a Roomster into a toolkit for living. Use it. Make room for your friends, your family, your hobbies, your obsessions. Make room for life.
